## Internet Explorer 7.0 (IE 7)

Posted by KingAli - 2008/01/21 21:57

---

Salam,

The scrollbar and the videos on the right column of the main page aren't working correctly with Internet Explorer 7.0. In firefox everything works fine...Anyone having the same problem??

Ali

Thanks for reporting the bug. Yes, we have seen this bug with IE 7.0. We are working on fixing it. Although IE 7.0 is not very stable yet but we will try to workaround the problem. We will fix it as soon as possible.

Thanks for reporting it

For the time being, please use Firefox (our recommended browser) or IE 6.0.
