i love this topic and its very interesting to me
it brings many thoughts to my mind , american dance is a big things to yemenies and non yemenies , but sooner or later
any pure blooded yemeni will have to go back to their music and their dance , and how i look at it yemeni dance is soooo
much better then american dance , its more respectful and appropriate to dance in front of others of any age. take my
example i been in america for about 10 years , yes i love american dance but seriously to me it doesnt even cpmpare to
yemeni dance , we dance yemeni from our soul not to show off like american dance . so i got to the conclulsion of yemeni
dance won in everywayyyyy
